

It's a beautiful thing when career and passion come together Becoming a Live Ultimate® Ambassador

As a Live Ultimate® Ambassador, you can:

- Purchase Live Ultimate products at a discount for your own personal use
- Sell Live Ultimate products and make a retail profit
- Build a team and recruit others who want to sell Live Ultimate products

Benefits of being a Live Ultimate® Ambassador:

Live Ultimate offers you the freedom of starting your own wellness business, giving yourself endless opportunities of working how you want, when you want, all while meeting new likeminded people and building your network. Many ambassadors start part-time selling to friends and family as a way to make extra money and others make it their full-time job. As with all businesses, making money is not a guarantee, it takes hard work and dedication.

The ability to earn income under the Live Ultimate® Compensation Plan depends on many factors such as an individual Brand Ambassador's business, social and sales skills. Additionally, factors such as personal ambition, time availability, diligence, persistence, contacts, leadership and financial resources all play a vital role. Live Ultimate® makes no guarantee of financial success and does not guarantee any particular level of earnings. Even Brand Ambassadors who dedicate a significant amount of time, effort and personal funds may not achieve a meaningful level of success. Success is dependent upon how well a Brand Ambassador exercises their unique qualities.

As we are a young company, our numbers fluctuate constantly. These numbers will be updated periodically.
